

5TH GRADE MATH

Week Of: April 20th

Directions: Pick one activity from the heart, circle and square. Hexagon is bonus!

- IXL – 5th Grade: 1.1; 1.2; 1.3; 1.4
- Make a decimal place value chart that goes from thousands to thousandths place – do not forget the decimal!
- Solve: How much ribbon will you need for 10 costumes if one costume needs: 1.75 yards ribbon for the hat, and 4.125 yards for the dress.

Standard - 5.5b – Create and solve single-step and multi-step problems involving multiplication of decimals.

Standard - 5.5b – Create and solve single-step and multi-step problems involving multiplication of decimals.

Standard - 5.5b – Create and solve single-step and multi-step problems involving multiplication of decimals.

- Whole Number Multiplication Review – IXL – 5th Grade: C.8; C.8; C.10; C.13
- When I say a decimal number, what would should I use for the decimal point?
- Find the product of: 3.2 and 4.6.

EXTENSION

- IXL – 5th Grade: 17; 18; 110; 111
- You want to buy 3 CDs for \$15.65 each. How much will this cost you? You have \$40. Do you have enough money? Why or why not?
- You want to buy 2 DVDs for \$12.49 each. You \$40. Do you have enough money? Could you buy a third DVD for \$12.49? Why or why not?

- Solve: Rosa bought 20 boxes of chocolate and 12 bags of candy. If a bag of candy costs \$0.43 and a box of chocolate costs twice as much as a bag of candy, how much did she spend buying the chocolate and candy all together?
- Rosa gave the clerk \$50. She received \$29.46 in change. Is that correct? Why or why not?
